

ANNUAL REPORT 2015-16

Technology Resource Communication
and Service Centre (TRCSC) | Jamshedpur

उत्क्रमित मध्य विद्यालय कुन्दीलौंग

ग्राम - इचागाव, जि. - अहमदनगर, जिल्हा - महाराष्ट्र

VISION

TRCSC's vision is to change the lives of the rural communities through capacity building, empowerment, management of local resources and knowledge enrichment

MISSION

TRCSC's mission is to built confidence among the children, youth and women of its target villages through promotion of education, skill training and group promotion for income generation

OBJECTIVES

- To reduce hunger, malnutrition, poverty through integrated farming, land water management, skill development and information dissemination.
- To enhance capacity and cooperation among the community based organizations, so that basic rights and entitlements are ensured.
- To promote functional literacy, education, training & entrepreneurship opportunities for the children, adolescents, youth and women.
- To create employment opportunities through individual or group based micro - enterprises; particularly in the field of processing agri-horticulture, animal husbandry, and fishery etc.
- To aware on community health, climate change, disaster management and foster community initiatives to address the issues.
- To organize action research, documentation, dissemination of reports and documents and service support to the community based organizations.

Message from the Board

This year TRCSC as a non-government organization has been reached in its 15 years of dedicated service in Jharkhand state. Since 2002 TRCSC gained a well deserved reputation for implementation of several projects supported by Government Departments and other Supporting Agencies in active participation of the target area population. Form and promote community based organizations (CBOs) and institutionalizing their efforts for overall growth and benefit of the village people are the basic approaches of our rural development initiative right from the beginning started producing good result in the mean time.

Our focus on integrated development of the targeted families and communities to ensure food security through introduction of new technology, access to good quality seeds, utilization of bio-fertilizer, training and exposure to farmers field, foster literacy and education, skill training and entrepreneurship development, access to own house, water, health awareness, sanitation and hygiene help the families to understand the development process in the area.

During this period a number of village development projects has been implemented in the targeted villages out of which few are new one generating resources from Government departments, CSR support and Development organization from abroad.

The projects are Horticulture Promotion; Promotion of System of Rice Intensification; Agriculture Extension, Promotion of Education and Skill Training; Fostering Literacy and Education; Strengthening Gram Sabha and PRIs; Women Literacy, Women SHG formation and strengthening; Skill Development program of girls/youths; Child line services(1098), strengthening lac cooperative.

During the year TRCSC has reached to 360 villages of 13 blocks of 3 districts e.g. (i) Saraikela-Kharswan, (ii) West Singhbhum and (iii) East Singhbhum of Jharkhand state either directly or through its networking partners. We have been reached to 20000 families through some kind of development interventions for those families towards improved quality of life.

The positive impact of our activities are now being visualized in the villages as the people are more and more actively involved in our intervention effort. The children, adolescents, youths, women and people in general feel confident due to skill and knowledge enhancement.

Last not the least; at the end we take the opportunity to express our sincere thanks and gratitude to Government of India, Government of Jharkhand, Panchayati Raj Institutions, Corporate Social Responsibility and other Non-Government Donor organizations within the country and abroad for their support and guidance.

We also want to express our thanks to our Advisor Members, CBO members, Colleagues & Volunteers and the people of the area who supported us tirelessly during the period.

Tapas Paik
Chairman

Manas Kumar Das
Secretary

Core Competencies of TRCSC

- Grounded Rural Development Projects smoothly
- Introduction of Innovative Technology
- Resource Mapping of Watershed Areas:
- Research & Documentation
- Extensive knowledge on PESA & PRI Act
- Participatory planning and rapport with grass root people
- Commitment to the cause of the Children, Adolescents and Women
- Promotion of organic agriculture and hand holding support to the target area families for development

Area of Operation :

District – 3

1. Saraikela-Kharswan
2. East Singhbhum
3. West Singhbhu

Total Coverage :

- No. of Blocks - 13
- No. of villages – 300
- Total no of Families – 18000 (20000)

TRCSC Key area of Work :

- Sustainable Livelihood and Food Security
- Education and Literacy promotion
- Water, Health -Sanitation and Hygiene
- Empowerment of Gram Sabha and Panchayati Raj Institutions
- Promotion of Community Based Organizations

TRCSC Intervention Focus

Ensure food security

- Promotion of SRI method of paddy cultivation
- Horticulture development in uplands and waste lands
- Women Self-Help Group promotion and linkages with income generation activities
- People's Empowerment for Accessing Rights to Livelihood

Foster Literacy, Education and Skill Development

- Ensure pre-primary, primary and Secondary education to the children (minimum Xth Std. pass)
- Vocational Skill Development of the Adolescents, Youths and Farmers
- Functional literacy for women and neo-literates

Access to own house, water, health, sanitation and hygiene

- Build own house in own land tapping Government resources and own resources and labour
- Sensitize on water rights for safe drinking, domestic use and irrigation
- Promoting ownership of water resources with the community
- Sensitize on Health and Hygiene issues

Form and Promote CBOs

- Formation and strengthening of Children's club
- Youth club promotion at village level
- Mahila Mandal promotion at community level
- Women SHGs at hamlet level
- Yuva Manch & Mahila Mandal Federation at Panchayat/Blocks level

Livelihood and Food Security

1. Mission for Integration Development of Horticulture :

Overview:

Horticulture promotion is one of the priority activities of Jharkhand Government. Jharkhand State Horticulture Mission was launched in 2005-06 as a Centrally Sponsored Scheme to promote holistic growth of the horticulture sector through an area based regionally differentiated strategies. The scheme has been subsumed as a part of Mission for Integration Development of Horticulture (MIDH) during 2015-16 throughout the country.

Here, the State Horticulture Mission responsible for Horticulture promotion at the State level with 15% contributory share. The emphasis has been given for the holistic growth of the horticulture sector covering fruits, vegetables, root & tuber crops, mushrooms, spices, flowers, aromatic plants, coconut, cashew, cocoa and bamboo as per regional feasibility. This program is supported by Jharkhand State Horticulture Mission.

Objectives:

- To enhance horticulture production, augment farmers, income and strengthen nutritional security.
- To promote the horticulture sector planting mango, cashew, flowers and bamboo. includes research, technology promotion, extension, post harvest management, processing and marketing.
- To improve productivity by way of quality germplasm, planting material and water use efficiency through micro irrigation.
- To support skill development and create employment generation opportunities for rural youth in horticulture and post harvest management.

Coverage:

District - Saraikela-Kharswan
Block- (i) Chandil, (ii) Ichagarh,
(iii) Kukru and (iv) Nimdih
No. of villages – 30
No. of families covered – 500

Activities & Achievements:

- Plantation of Cashew, Guava and Mango trees.
- Promotion of floriculture like Merigold, Gerbera, Rose, Gladiolus in waste land.
- Creation of water resources like well, pond, deep tube well.
- Vermi compost production use during plantation and post planting operation.
- Planted 3000 Cashew and Mango plants in 60 hectares of wastelands and 70% survival of plants in the field and started production in a small amount in different clusters.

Impact:

The waste land earlier barren land gradually becoming productive through plantation, land owners are enthusiastic and started getting fruits and nurturing the plants.

System of Rice Intensification :

Overview :

The people of Jharkhand are largely dependent only on agriculture and allied activities. The total cultivable land in the State compares well at 52% of the total geographical area with 55% in the country. Total about 78% of the population of about three cores live in rural areas, The agriculture economy of the state Jharkhand is characterized by dependence on nature, low investment, low productivity, mono-cropping with paddy as the dominant crop, inadequate irrigation facilities, small and marginal land holdings. In fact, it is considered to be a food deficit state and therefore strategies were tailored in the past to meet the chronic shortage of food through imports from other states. The Lack of absence of assured irrigation as one of the problem areas and non-development of appropriate technology for dry land and drought-prone areas compounds the problem. To increase production introduction of System of Rice Intensification (SRI) is the only way to address the problem and ensure food security of the people of the state.

As far as SRI methodology is concerned, the process i.e. (i) Seed Selection and treatment; (ii) Wet Bed Nursery; (iii) Transplantation; (iv) Spacing; (v) Regulating water depth as much as possible; (vi) Weeding and hoeing;

Objectives :

- To make knowledge about SRI more widely available.
- To introduce SRI technology to increase paddy productivity.
- To advance knowledge on SRI methodology and practices.
- To advocate SRI with Government and other networks throughout the state.

Coverage :

District – (i) East Singhbhum;
Block – (i) Patamda, (ii) Boram and
No. of villages – 50
No. of families covered – 300

Activities and Achievements :

- Mobilization and selection of farmers.
- Help the farmers for seed selection and treatment.
- Inform the farmers for Wet Bed Nursery development in lowland.
- Inform the technique of Transplantation without disturbing the roots.
- Inform the technique of Spacing 1 ft row-to-row and 1 ft. plant-to-plant.
- Provide knowledge of regulating water depth such drying and wetting.
- Provide the technique of weeding and hoeing for 2-3 times during the growth phases.
- 300 farm families have been benefitted through paddy cultivation in SRI technology of various varieties of seeds.

Impact :

Food security ensured of 300 farm families in East Singhbhum district in the state throughout the year. More and more farmers are now interested in paddy cultivation through SRI technology.

The 48% old farmers are not supported by us at this point of time, but they are cultivation through SRI technology with their own effort and investment due to sustained knowledge practices.

2. Skill Development of Youth on Solar Lantern

Overview :

Our country has huge young population now enter the job market. But to train those populations with some sort of vocational trade there is a huge gap exist till date. Youth force of any country is the most important populace. This youth force need to be trained on various skills so that they can earn through that skill and help the family too. Here Solar Lantern assembling and repairing training has been arranged for the youths. Our field experience is that the Lanterns are distributed by the Government and other Agency but due to lack of proper maintenance and repairing facilities these items are not functioning over a time of period.

TRCSC selected as a Lead Nodal Training Center (NTC) for Solar Lantern assembling and repairing along with other one partner in the state started the task for the benefit of the youths as well as environment.

Objectives :

- To create direct alternative livelihoods to marginalized, Tribal adolescents & youth through skill enhancement
- To provide sustainable economic benefit to young boys & girls including differently able youth, who are in the age group of 18-30 years.
- To reduce spending on scarce non- renewable energy resources (Firewood & Kerosene) and use the money for other profitable initiatives.
- To create awareness in the community on alternate energy sources and carbon mitigation.
- To offer quality skill training on Solar Lantan to the youths through efficient supervision to enhance their skill.
- To train the youths of the villages and financially weaker sections of the society with the purpose of creating self employment.

Coverage :

District- (i) Seraikella–Kharsanwa (ii) East Sighbhum

Activities & Achievements :

Refresher Training on Solar Lantern provided to selected 40 youths from two districts who are interested on the same out of which 16 are male and 4 are female.

Impact :

Majority youths (Micro Entrepreneurs) are now self-employed started assembling and repairing of Solar Lantern provided to the women SHG members and Villagers and earns money.

3. Promotion of Lac Cultivation through strengthening Lac Cooperative - Sustainable Options for Uplifting Livelihood (SOUL)

Overview:

Lac cultivation is a secondary source of income for a large number of farmers mainly in Jharkhand. It is a subsidiary crop for the growers who depend on it for meeting cash expenses towards family needs and cash purchase for their households. Since last decade interest of farmers in Lac cultivation decreasing considerably. Because the yield of Lac is decreasing day by day due to pollution, dust etc. Now status of Lac cultivation in this area is very miserable. In spite of a large number of trees of Palas, Ber and Kusum in these areas exist, farmers are not ready to take risk to invest on Lac cultivation. Under such circumstances, TRCSC with support of IGSSS made attempt to revive this cultivation. For the promotion of Lac cultivation Birsa Munda Lac Utpadan Sahajog Samiti was established in the year 2011 with 50 farm families from Bandu, Gorangkocho and Gudri Panchayats of Ichagarh Block

Objectives:

- To strengthen Lac Cooperative for functional and dynamic for the benefit of its members.
- To strengthening and streamline Lac production systems with identified villages and targeted farmers.
- To strengthen supply chain and establish market channels for Lac Cooperative.

Impact:

- The farmers gained confidence for Lac cultivation.
- Cooperative started with 50 members of 14 villages now it increased up to 104 members.
- Update the records and audits.
- Created Input Bank (Pesticides, Nets, Brood Lac, Pruning and Spraying equipments).
- Brood Lac bank has been established at cooperative level.

- Scientific method has been adopted for Lac cultivation.
- Market Linkages and tie-up with local traders.
- Convergence and linkages with Government departments and Financial Institutions.
- Value addition in Lac benefits the farmers financially.
- Election for finalization of New Executives Board Members and other functionaries with help of District and Block cooperative Department

Education Promotion

1 . Mitali (Women Literacy Project)

Overview:

TRCSC started the Women Literacy Project in May, 2015 with the objective of educating the illiterate women, so that they can improve the quality of their life and the life of their entire family.

The mission of the project is to bring happiness & joy in the lives of the disadvantaged & marginalized

The project **"MITALI (Friendship for Literacy): Literate Women, which strengthen their Sense of Empowerment (Know Your Power), Unique Strength and foster Equal Opportunity"** completed first phase i.e three years of its implementation. Mitali project provided special education to those women who were deprived from school education during their childhood. TRCSC established 25 learning centres in 25 project villages to educate such women. Individualized Education Program is implemented based on individualized assessment and progress to them through learning centres. Individual attention was given to each woman with a view to improve their activities of daily living, life skills etc. Total 653 women were undergoing such education system at their villages,

Coverage:

District- Saraikela-Kharswan

Block- Ichagarha

No. of villages – 25

No of families covered – 850

Total number of learning center - 25

Total number of Women benefitted – 1620
(directly and indirectly)

Activities & Achievements:

- 25 centres with 653 women learners have been established in 25 villages of Ichagarha block of Saraikela Kharsanwa district.
- Community Educators and other staff were capacitated for smooth implementation of the project.
- Learners able to read write correctly their name and address
- Learning Centres are not only education centre but also plying as Multipurpose Resource Centre. (Meeting spot, Library, training centre, Learning centre etc.)
- Male person realizing the importance of women literacy and now they are supporting, initially, they were opponent.
- Confident level of women were increased, in beginning they were very shyness and reluctant to talk.
- They were participating village level meetings.
- Self confidence and self reliance of women have been considerably increased.
- Women are raising voice against anti-social elements

2. Fostering Literacy & Education :

Overview :

Education is the key to overall human development and improving the educational scenario for Jharkhand is essential for its population and for India to reach towards the attainment of universal elementary education. The challenge for universalisation of elementary education is most severe in the educationally backward states, especially among the tribal populations. The relatively new and small state of Jharkhand the situation is not at all good.

The literacy rates in Jharkhand are increasing over time as is the case with most parts of the country. The gains experienced by girls and tribals, the groups which have recorded relatively lower literacy rates in the state are substantial. Nevertheless the gender differences remain and this is more among the socially disadvantaged sections. There are also variations across districts of the state. To address the above mentioned situation TRCSC is implementing the 'Fostering Literacy and Education Project' to ensure Child Rights through promotion of Education.

Objectives :

- To ensure quality services to the children aged 0-5 years in AWCs and the School going children.
- To empower Mothers Committees in AWCs and SMCs in schools to own up the education process in the villages.
- To promote CBOs like SHGs, Youth Groups and Kishori Groups to respond the need of the children of the marginalized village communities.
- To enable people to demand better basic services by supporting them to develop direct linkages with all government development schemes.
- To organize and participate in the State advocacy program through networking.

Coverage :

District- Saraikela-Kharswan
Block- Kukru
No. of G.P.-9

No. of villages – 45

Total no. of AWCs – 81

Total no of Schools – 43

No of children served - 11419

No. of Families covered - 4326

Activities & Achievements :

- Bal Sansad re-structured, organized and strengthens in all 43 school as per government norms.
- With our project effort in all the 43 schools is now conducting proper assembly system which helped children in enhancing their day to day knowledge.
- Due to construction of Bal Sansad in school it has been found that a common understanding on democratic process has been developed.

- Participation of members in SMCs has been increased to more than 60% since the project start it was only 10-15%. Now SMC member became regularize to attend the monthly meeting.
- Increased 61% retention in primary school due to SMC members' involvement in monthly meeting.
- Learning level progress of the school children visualized clearly only due to project intervention. Now school teacher maintained school syllabus & followed government guidelines (Continuous & Comprehensive Evaluation-CCE) on regular basis.
- Extra circular activities in school like annual sports, Science fair, Quiz competition, etc can be visualized at school level as well as block level due to the intervention of the project

Impact:

In Anganwadi centers the children learning level increased gradually. The AWCs are now sensitive enough regarding their attendance and participation in the centers. Children are now identifying color, letter, number, word, shape, size, different vegetables & animals etc. Mothers are active enough to take care of their own children for growth & development. After the frequent visit of AWCs, the growth monitoring chart &

MCP card is maintaining in 27 centers on a regular basis. Well convergences build up with all the AWWs, Mata Sanities, ANM, PRI members and Project staff.

In all 36 schools in the area the SMCs are now functional and understand their roles and responsibilities. Today SMC & PRI members are able to understand the concept of RTE & importance of education of the children in the area. 160 Bal Sansad members attended training, enhanced knowledge & information in the child parliament session. Training increased capacity of the Bal Sansad members to understand child related issues and raise voice in the SMC meeting. School children are now regular in Primary & Middle school. Student understood the process of learning by doing method and increased curiosity of the students to know the practical way of learning.

Farm based Skill Development training of the Girl Children of Kasturba Gandhi Balika Vidyalaya

1. Mushroom cultivation for improving nutritional security and enhancing skill among the KGBV students

Overview:

TRCSC has takeover a project to train the most marginalize girl students in KGBV, Potka for mushroom cultivation and production. The overall design of the project was training on technical as well skill part on mushroom cultivation to 80 marginalized students in batch wise.

Objectives:

- To organize training programs for the students on Mushroom cultivation

Coverage:

District - East Singhbhum

Block - Potka

Major Topics covered in the training:

- What is mushroom
- Why mushroom cultivation
- Types of mushroom

- Cultivation technology of different mushroom
- Nutritional value of different mushroom
- Value addition of mushroom
- Schemes available for mushroom cultivation
- Marketing

Activities & Achievements:

After several visits and discussion with KGBV & ISWP the proposed training cum production organized with 80 students with theoretical and practical sessions. We have developed the training design and set-up the production rooms with all necessary arrangement to conduct training cum production of mushroom. 80 trainees were participated in 4 batches and 501 kgs. total Mushroom produced which was cost about Rs. 60120.00

Impact:

The students trained here, they motivated the family members and started mushroom cultivation at the family level.

2. Training on Nutritional Garden for the students of KGBV:

Overview:

TRCSC has takeover a project to train the most marginalize student in KGBV, Potka for Vegetable cultivation and production supported ISWP, Jamshedpur. The overall training design prepared by TRCSC in consultation with KGBV.

Objectives:

- To train the students on Vegetable Cultivation

Coverage:

District-East Singhbhum

Block-Potka

Strategy:

- Student selected from VIII-XII Standard for class room and practical training (learning through doing concept)
- Holistic approach of farming adopted in the school garden and integration of all components

Major Topics covered in the training:

- Water management
- Seed selection and crops selection
- Insect and pest management
- Vermi compost
- Liquid manure
- Integration system

Activities & Achievements:

Total 71 students studying from class VIII to XII were participated in the training program. Total 3958 kgs. vegetable produced which was cost about Rs. 56277.44

Impact:

The students trained here motivated the family members and started vegetable cultivation at the family level.

Health, Water and Sanitation :

Neer Nirmal Pariyojna

Overview :

Seraikella-Kharsanwa and East Singbhum districts were identified as among six districts of the state for implementation of Neer Nirmal Pariyajna. This project is based on the parameters of piped water supply and household water connection.

To alleviate backwardness in water supply & sanitation sector, GOI approached the World Bank support in Rural Water Supply & Sanitation Project (RWSSP)

Within the scope of the project, TRCSC has undertaken two Blocks Ihcagarha of Seraikella-Kharsanwa and Potaka of East Singbhum districts for implementation for the first phase which includes Water Supply, Sanitation with total beneficiary participation. This project started from September, 2015

Objectives :

- Eradication of open defecation by providing basic sanitation and evolving a new strategy
- Ensure peoples participation at all level which shall lead to recovery of capax.
- To improve overall rural water supply and sanitation services through progressive decentralization.
- To create a sensational social norm acceptable at all levels for water and sanitation.

Coverage :

District- Saraikela-Kharswan & East Singbhum

Block- Ichagarha and Potka

No. of schemes-19

No. of villages – 19

Activities & Achievements :

- Institutions developed at the Organisaional Level has been done
- House hold Survey d GP survey all the villages have been completed
- VWS Committee of all project villages have been reorganized and strengthened.

- More than 80% Capex(Community contribution were collected.
- Land for water tank and installation of other machineries were almost identified
- Construction of Water tanks in five villages have been completed and other ares in progress
- Door to door Water supply has been successfully done in one village and in rest villages , it is on progress
- Water Security plan and Solid and Liquid waste management Plan completd.

Impact :

- Villagers were understood the importance Safe Drinking water.
- VWS committees were activated and sitting regularly.
- Women were organized and united in context of supply of Pipeline water.
- Other villagers for neighboring villages were eagerly waiting for such scheme.

Women Empowerment

1. Women Self-Help Groups

Overview :

Women SHG movement in our country has a long history. In the SHG formation and promotion process women included in the development process so as to make the countries continuous growth and development. In the SHG movement process the members of SHGs transformed their lives from a state of desperation to confidence. Women Self Help Groups have emerged as Support Groups to bring about women's solidarity in facing all kinds of problems in their domestic environment. This has led to the increasing empowerment of women, releasing them from their anguish and helping them to resist injustice. Women SHG is a village-based financial intermediary usually composed of 10–15 local women. Members make small regular savings contributions over a few months until there is enough capital in the group to begin lending. The promotion of SHGs is a process, by which the members, who are identified by participatory techniques, come together for their mutual benefits.

Objectives:

- To empower the women based on income enhancement and economic self-reliance.
- To provide access to sustainable banking services to the poor households in rural areas by formation and nurturing of women SHGs.
- To promote and support livelihood development programs for the poor through SHGs
- To converge other development programs aimed at poor women /households through these groups.

Coverage:

District- Seraikella-Kharsanwa

Block- (i) Ichagarh, (ii) Nimdih

Activities & Achievements:

- Formation and promotion of women SHGs and 246 SHGs has been formed and promoted.
- 92 SHGs has been made Bank linkage during the period.
- 31 SHGs already being Credit linkage with the bank

Impact:

- The SHGs formed by women save money every month and mutually agree to contribute to a common fund to be lent to the members for meeting their productive and emergent credit needs.
- All the groups maintain the records such as membership register, minute's book, cash book, savings ledger and the lone ledger.

- They prepare action plans after a detailed discussion of their proposed activities. Every member of the group gets an opportunity to put forth her views.
- The SHGs have made a lasting impact on lives of the women particularly in the target areas.
- The quality of life has started improving. There is an increase in their income, savings and consumption expenditure.
- It shows an improvement in their standard of living the women have gained self. Confidence gradually. They got an opportunity to improve their hidden talents after joining the SHGs.

Advocacy against Child Marriage

Overview:

Child marriage in rural area has been practiced for centuries, with children married off before their physical and mental maturity. The problem of child marriage in rural area remains rooted in a complex matrix of religious traditions, social practices, economic factors and deeply rooted prejudices. Regardless of its roots, child marriage constitutes a gross violation of human rights, leaving physical, psychological and emotional scars for life. Sexual activity starts soon after marriage, and pregnancy and childbirth at an early age can lead to maternal as well as infant mortality. Moreover, women who marry younger are more likely to experience domestic violence within the home. The harmful consequences of child marriage are segregation from family and friends, limiting the child's interactions with the community and peers, Lack of opportunities for education.

Objectives:

- To improve adolescent's and youth's knowledge on SRHR and access to their services.
- To enhance access to formal education and ensure retention amongst adolescent's girls.
- To educate & mobilize communities towards change in behavioral, traditional and religious practices.
- To Influence Government policies, institutional mechanisms and services on CM & SRHR.

Coverage:

District- Saraikela-Kharswan
Block- Ichargarh
Gram Panchayats- 4
Villages- 20

Activities & Achievements:

- Selection and Training of Yuva Mitra
- Formation of Youth club and of Kishori group
- Formation of village committee
- Meeting for SMCs
- School level Activity
- Counselling of married & unmarried Girls
- 120 Yuva Mitra trained and counsel in the villages among the peers and parents.

Impact:

Parents and Adolescents are now understanding the ill effect of child marriage, importance of education gradually. Members of Youth Clubs, Kishori Groups, Village Committees were aware on the issue and advocate in the villages. The girls are now resistant against early marriage. The parents are reluctant for girl child marriage if they are attending school. The families are aware regarding the benefits of girls education till reach to 18 years due various beneficial schemes of the Government.

**Childline Service****Overview:**

TRCSC operates a telephone helpline called Childline, for children in distress. CHILDLINE reaches out to all children in need of care and protection. These include: street children, child labourers, children who have been abused, child victims of the flesh trade, differently-abled children, child addicts, mentally ill children, and children infected by HIV/AIDS - any child who needs our help. With support of Government of India and Childline India Foundation, TRCSC started Child line service in East Singhbhum district with Ghatshila office since 2015

Objectives:

- Ensuring that every child in India has access to emergency assistance by setting up the CHILDLINE service.
- Facilitating rehabilitation of children all over India through a platform of networks amongst organizations
- Promoting child rights amongst every citizen through awareness about CHILDLINE 1098.
- Bringing forth core issues for advocacy, as determined by observing trends and gaps in service that emerge from Research and Documentation of issues related to children in need of care and protection.

- Promoting issues related to children in need of care and protection by sensitization of Government organizations, Non Government organizations, corporate sector, media, street and community youth and concerned individuals.

Coverage:

District-East Singbhum

Block- Ghatshila, Dalbhumgarh and Musabani

Activities & Achievements:

- Outreach session conducted with the support of entire team members. These outreach session mainly based on information disseminate about the Child Line services among the grass root level functionaries. These grass root level functionaries are SHGs ,PRIs, AWW, SAHIYA, ANM and School teachers, Gram Sabha Members.
 - 25 awareness campaigns organized services of children good aspects for schools children.
- Events are mainly based on create an environment in our project area. Some of the major events organized in Dhalbhumgarh,
 - Two children namely Aman Bahudur ,aged 9 years and Sweety Bahadur aged 7 years from Gayadistrict of Bihar were found as vagabond at Tatanagar station were rescue and handover successfully to their Guardian

Impact:

- Awareness about Childline service was done in all three Blocks
- Aware program were conducted with school Teachers and ICDS workers.
- Rapport with Government line department including Police has been built
- Staff capacitated with JJB Act, Child labor Act, Child Marriage Prohibition Act, POSCO Act etc.

1. Rural Empowerment for Entitlement Realization

Overview :

Rural Empowerment for Entitlement Realization' Project was started on July 2014 in Jharkhand. REER Project Provides Promotion of CBOs, Like Gram Sabha, SMC and WSHGs empowerment and involve them in entitlement realization and decision making process. The approach and engagement will be participatory and access all those facilities as a matter of right. The basic focus is to promote youths of socially excluded communities so that they can come up with positive attitude and confidence which is requirement for inclusive development. The project area is having only 34% literacy rates. The occupations of the families are agriculture, daily labour and collection of Non-Timber forest products. The people are schedule tribe and schedule castes.

Objectives :

- To organize and promote community based organizations like 10 Gram Sabha, 10 School Management Committees (SMCs), 60 Social Leaders in 10 villages of Seraikella-Kharsanwa district for creating adequate response for entitlement realization by their own with more focus on women.
- To build awareness of rural mass on Women rights, PRIs vis-à-vis Women, Entitlements and Government Schemes, Roles and Responsibility of Gram Sabha members & School Management Committee members, RTE Act etc. to ensure their mobilization for their entitlement realization.
- To create livelihood options in 10 referral villages through participatory micro plan formulation, Agricultural and other natural resource promotion, technical skill up-gradation and linkages building with Government Support System etc.

- To advocate for proper realization of RTE Act 2009 at community as well as at state level for better and quality elementary education for children of poor family with more focus on girls.

Coverage :

District-Saraikela-Kharsanwa

Block-Nimdih

Panchayets- 2 (i) Chirngra-Parkidih (ii) Lakri

Villages- 10

Hamlet- 19

Total HHs- 1559

Population- 7746

Activities:

- Baseline Study to know the detail situation
- SHGs Meeting, SMC Meeting and Gram Sabha Meeting

- Workshops for Women Empowerment and Training for Social Leaders
- Formulation of School Development Plan
- Meeting for Participation in Micro Plan Formulation
- Technical training for Income Generation /Entrepreneurship Promotion
- Agriculture Promotion (SRI and Vegetable Cultivation)
- Conducted Monthly Meeting with Gram Sabha Members 432 villagers are enhance knowledge on Gram Sabha and standing committee under Gram Sabha.
- 3 Standing Committee formed through Gram Sabha Meeting in 3 different villages.
- Sahiya Selected through Gram Sabha Meeting at Burudih Village.
- 66 Trained Village Social Leaders Prepared in different 10 village and they are playing positive active role in the Village.
- 14 New SHGs Formed and 5 old SHGs reformed out which 7 SHGs age Linkages with Bank and 2 SHGs are applied for NRLM fund.

- School Management Committee Members actively participated in monthly Meeting in 14 schools and SMCs Members are enhance knowledge on Right to education Act-2009 article, School development plan and their Role and Responsibility of 14 school in ours project areas.
- 6 School Management Committees are Reformed in 6 schools, 2 School Management Committee Members have fenced with Temporary Bamboo made fencing in School Boundary.
- 5 farmers earned up to Rs. six thousands by selling Cucumber

Impact:

The people project area are acquainted with the Government Schemes and services are their rights and entitlements. They are now well aware regarding different schemes of government and take the benefit out of it. The family members are now attending the Gram Shabha meeting regularly and discuss the village and family development issues.

Own Initiatives

1. Model Nursery

As on today availability of genuine variety and good quality fruits and vegetables saplings is very much important for early, quality and large quantity of fruits and vegetable production which stimulate the marginal and small farmers to ensure good earning from Orchard and Vegetable cultivation as an alternative source of income.

Mission for Integrated Development in Horticulture (MIDH) has taken an initiative to specify the Nursery Standard by Specifying Infrastructure required for setting up of Model Horticulture Nursery in the state of Jharkhand.

A recognized Model Horticulture Nursery should function as a reliable source of supply of quality planting material for horticulture crops to the farmers.

With a view to ensure availability of good quality Planting materials as outlined above, TRCSC has set-up a model nursery at Rudia village of Chandil block of Saraikela-Kharswan district.

In this context TRCSC has set-up a 4 hector model nursery to meet the requirement of sufficient quantity of fruits and vegetables saplings as well as 1 hector small nursery for production of quality cashew plant at Rudia with the financial support from Jharkhand State Horticulture Mission, Ranchi and loan from Bank of India, Mango-Dimna Chowk branch, Jamshedpur.

2. Mushroom Spawn Production Laboratory

Mushroom Cultivation in rural areas is very important as it is become very popular nutritious food. It contains a high nutritious value. In big hotels also Mushroom soup is very popular & costly. Vegetarian people has prefers mushroom a lot. The demand of mushroom is increasing day by day. It is low capital investment cultivation for the SHG women members to cultivate. But the problem is to getting mushroom spawn (seed) locally.

Also it has been found form the recent trend that the majority of non-vegetarian population in the country especially in eastern India turns their food habits towards vegetarian and this has increase the demand of Mushroom due to its adequate nutritive value.

In recent years mushroom cultivation in India has witnessed a tremendous growth with respect to the type of mushrooms and their productivity. The mushroom market is growing continuously mainly due to increasing interest in their culinary, nutritional and health benefits. On recognizing the importance of mushroom as an eco-friendly alternative for agro-waste recycling, capability to provide better nutrition for the vast vegetarian population, employment generation and a good income source and to meet the mushroom seed need of the women SHG members are involved and willing for mushroom cultivation TRCSC has plan to establish one Mushroom laboratory to supply seed immediately form the locality.

TRCSC has set up a mushroom spawn production laboratory at Dimna, Jamshedpur for supplying quality spawn to the growers and entrepreneurs with the financial support from Jharkhand State Horticulture Mission, Ranchi and loan from bank of India, Mango-Dimna Chowk branch, Jamshedpur.

TRCSC has been providing technical training and guidance to growers and entrepreneurs for uninterrupted Mushroom production throughout the year. This year we have produced around 16000 nos of spawn packets on various varieties and provide technical training to 88 growers and entrepreneurs on cultivation technique.

This has created an opportunity to the women SHG members and youth to earn money on the one hand and solve the unemployment problem on the other hand.

Report on the Financial Statements

We have audited the accompanying financial statements of **"TECHNOLOGY, RESOURCE, COMMUNICATION & SERVICE CENTRE (TRCSC)" (PAN: AABTT0526B)**, which comprises the Balance Sheet as at 31st March 2016, Income & Expenditure Account, Receipt and Payment Account for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Organization in accordance with the accounting principles generally accepted in India. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the laws for the time being in force, for safe guarding of the assets of the organization and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal controls, that were operating electively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the laws for the time being in force, the accounting and auditing standards and matters which are required to be included in the audit report.

We conducted our audit in accordance with the Standards on Auditing prescribed by the ICAI. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material mis-statement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material mis statement of the financial statements, whether due to fraud or error. In making those risk assessments, the audit or consider internal financial control relevant to the organization's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by organization's management, as well as evaluating the over all presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the afore said financial statements, give the information required by the applicable laws in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;

- a) In the case of the Balance Sheet, of the state of affairs of the **"TECHNOLOGY, RESOURCE, COMMUNICATION & SERVICE CENTRE (TRCSC)"** as at March 31st, 2016.
- b) In the case of Income & Expenditure Accounts, result of operation for the year ended on that date.
